"Diamonds and Triangles"

This is interpreted from ISBN4-8377-0280-5. Prepare a foundation mari (approximately 3½"). Mark in a Combination 8.

8 Combination

Stitch triangles A-B-C in each section using your first two colours (in this case, tan and beige), alternating each colour so that they overlap on the intersections.

After approximately 6 rows change the colours around and stitch a further 6 rows, building the layers.

Now, in your third colour (pale green) stitch diamonds 1-2-3-4, interweaving them with the triangles, as shown in the photograph.
